

VIRTUSIM LAB

The lab course instructor facilitates students to use a **simulation of the lab experiment** before or after the laboratory session using “**Virtual Labs**” platform developed by **Ministry of Education**.

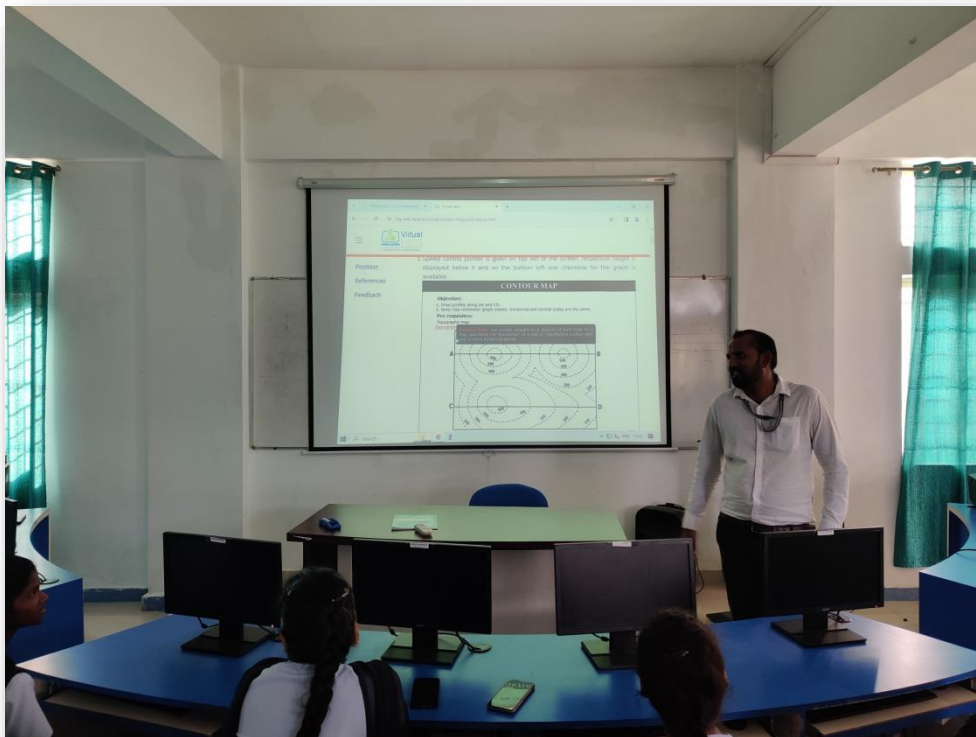

Objective:

1. To provide students with clarity in testing procedures, calculations, and possible results as individuals.

“VirtuSim lab”

- This teaching pedagogy is used for teaching laboratory concepts of the program like material testing, geotechnical engineering, environmental engineering, concrete technology, fluid mechanics etc.
- Here, the student is made to use a simulation of the lab experiment before or after the laboratory session using “Virtual Labs” platform developed by Ministry of Education.
- This provides the student with clarity in testing procedures, calculations and possible results as an individual rather than just conducting the same in a group.
